

Say Bye Anti-Brass

Shampoo / Conditioner

Bye bye, I knew this wasn't meant to be. This unforgiving duo gets rid of unwanted brassy, yellow tones thanks to the violet pigment Acid Violet 43 and blue pigment Basic Blue 99. But it won't leave it dry or stripped. Thanks to the active ingredient Grape extract, the hair will get more than just a cool tone as it will leave the hair soft and moisturized.

300 ml / 10,14 fl oz

Main ingredients for anti-brass:

- Acid Violet 43 & Basic Blue 99 - Cancels out yellow tones.
- Grape extract - Protects, softens and moisturizes.

Main ingredients for scalp, quality and shine:

- Tiger Grass - Calming and moisturizing benefits for both scalp and hair.
- Cannabis seed oil - For protected and moisturized hair.
- Piroctone Olamine - Worst enemy of microorganisms causing scalp problems, such as dandruff.
- Upcycled ingredients - Peach Flower, Pomelo and Olive.

Guide:

Wash twice with the Say Bye Shampoo. The purple and blue pigments are absorbed into the strand and hair follicles. By leaving it on for a few extra minutes before washing out, you can alter the hair's tone and color. Rinse through and finish off by leaving the conditioner in for 1-2 minutes and rinse thoroughly.

Scent: GLOW UP - Pear, Freesia, Cedar Wood
